Summary

I have a clear, logical mind with a practical approach to problem-solving and a drive to see things through to completion. I have strong technical skills as well as excellent interpersonal skills, that enable me to interact with others. I am eager to be challenged in order to grow and further improve my skills.

Experience

Junior Software Engineer

MIP Holdings

Feb 2019 - Present (3 years 11 months +)

I work as a Junior Software Engineer, maintaining and updating the systems that are made in OpenEdge Advanced Business Language. One day every two weeks I work on help-desk. I also do tech reviews and code reviews.

During my period at MIP Holdings I became proficient in SDLC (Software Development Life Cycle), SCRUM, Technical Analysis, Client engagement and Solution design

Skills:

Object-oriented Programming, Progress 4GL, Unix, JavaScript, Scrum, Agile, HTML, Postman, CSS, Postman API, REST APIs

Research And Development Engineer(Internship)

Opensearch

Feb 2018 - May 2018 (4 months)

I was making tests with night-watch and Xunit. I also did research on Xunit which was a technology to be used in the future. Both night-watch and Xunit were new technologies that were introduced in the new workflow of the team that I was in.

Skills:

xUnit.net, Selenium WebDriver, JavaScript, Nightwatch.js, C#, ASP.NET MVC, Scrum, GitHub, HTML and CSS

Web Development Intern

Oracle

Jun 2015 - Jun 2015 (1 month)

I learned and worked with Joomla. I was given a task to make an offline page and set up and configure the Joomla platform.

Skills:

Joomla, HTML, CSS

Web Development Intern

Oracle

Jun 2014 - Jun 2014 (1 month)

I learned and worked with Moodle. I was given a task to create a template to be used on moodle. It was a really nice experience that got me involved with backend development.

Skills:

Joomla, HTML, CSS

Web Development Intern

Oracle

Jun 2013 - Jun 2013 (1 month)

I learned and worked with Apex. I was given a task to make a web site, so I was working in a team. This really helped me understand and gave me a glimpse of what companies really expected at that time.

Skills:

Apex, HTML, CSS

Education

WeThinkCode_
